Sir: Re: Please help: My patents are not issued

From telecons with the examiners and others in the Patent office, few of my correspondence have been reaching my post office address. I have submitted change of address information but most of my applications are in a state of being held.

There is no abandonment on my part by any action of any basis in fact that these applications should be held. Please reconsider such holding for a continued status to complete processing of my patents. I may need help from the examiners to get the correct wording for the claims but the progress is lost at this point.

The patent application numbers involved are:

8764859
9222215
8736009
~~9233805~~
9182314

Thank you for the attention you will give to this dilemma. I have received no response to many prior letters; the abandonment status is not fair when the time constraint has been exceeded by action of which I have no control. Please reinstate my applications with a next to for each so that I can proceed with the proper action.

Respectfully Submitted,

AW Learned III
